TUTOR NOTES

Ignacio has been tutoring at Firat Education since the Fall of 2019. He specializes in English Composition and Reading, helping middle school, high school, and college students improve their skills in those subjects. Ignacio has experience showing students the importance of proper punctuation, grammar, and formality in English writing; even outside of work, he is always willing to give constructive feedback to his fellow classmates on their writing. The most rewarding part about tutoring for Ignacio is seeing how quickly his students begin to apply what they've learned in his sessions, especially in grammar and punctuation. Ignacio graduated with a BA in History from the University of St. Thomas Houston.
